Profile

the person behind the work

A multidisciplinary designer from Ahmedabad with a background in Communication Design, industry experience in UI/UX, and a current focus on Strategic Design Management at NID Gandhinagar. My practice brings together visual communication, digital experiences, design thinking, and the study of human behaviour to understand challenges from both human and organisational perspectives. I'm interested in how design processes, behavioural insights, and strategic thinking can inform decisions and shape meaningful outcomes across products, services, and organisations.

Skills

what I bring

UX & Product Design

User-Centred Design, Interaction Design, User Flows, Information Architecture, Wireframing, Prototyping, High-Fidelity UI, Responsive Web & Mobile, Design Systems, Usability Testing, Developer Handoff

UX Research

User Interviews, Ethnographic Research, Shadowing, Behavioural Mapping, Affinity Mapping, Personas, Journey Mapping, Competitor Analysis, Research Synthesis, Insight Generation

Design Strategy & Service Design

Design Thinking, Problem Framing, Service Design, Systems Thinking, Systems Mapping, Stakeholder Mapping, Market Research, Brand Strategy, Positioning

Visual & Communication Design

Brand Identity, Typography, Layout Design, Visual Storytelling, Packaging Design, Motion Graphics, Wayfinding & Signage

Experience

where the work got real

UI/UX Designer — July 2024 – June 2025
Zero Gravity Communications, Ahmedabad

- Designed and delivered 16 responsive client websites across 8+ industries, including real estate, food, agriculture, solar energy, apparel, steel, zippers and jewellery, from requirements to user flows, wireframes and high-fidelity Figma prototypes.
- Built and maintained 3 Figma component libraries and style guides to keep typography, colour and UI patterns consistent and streamline developer handoff.
- Ran usability testing with 7–8 participants and turned the findings into better navigation, content hierarchy and information architecture.
- Collaborated with 6 departments, including development, content, client servicing and performance marketing, to align designs with technical feasibility and business goals.

UI/UX Designer Intern — January 2024 – July 2024
Zero Gravity Communications, Ahmedabad

- Designed responsive web and mobile interfaces in Figma and Adobe XD for live client projects.
- Conducted competitor analysis and user research to inform interface layouts, content hierarchy and user journeys.

Communication Designer Intern — June 2023 – July 2023
Web Plus Info Tech Pvt. Ltd.

- Created visual communication assets and promotional creatives for 10–15 clients across digital platforms and applications.
- Contributed to website layouts and produced motion graphics in Adobe After Effects.

Projects

things I've made

Human Behaviour Study at Ahmedabad and Gandhinagar Courts — February – March 2026
UX Research & Service Design · High Court, District, Family, Criminal and Juvenile Courts

- Ran a 5-week ethnographic study across 9 courts in Ahmedabad and Gandhinagar, using shadowing, behavioural mapping and half-hourly footfall counts.
- Interviewed 9 litigants, a senior advocate at the Gujarat High Court and 2 district judges; mapped 17 stakeholder roles and synthesised 44 observations through affinity mapping across 14 lenses.
- Used personas, journey maps and a systems map to find 2 major pain points, no case information in local languages and no real-time hearing updates, and *presented our solutions to 2 district judges.*

NOU, Men's Footwear Brand
Brand Strategy, Identity & E-commerce UX/UI

- Carried out market research, a 5-brand competitor audit, perceptual mapping and segmentation to position a handcrafted, 100% Indian-leather label as premium.
- Created 3 personas, a brand platform and an identity system, refined from 29 logo explorations and carried across 8 brand touchpoints.
- Designed the user journey map, information architecture, sitemap, UI kit and e-commerce store.

Redesigning Signage at Kalupur Railway Station — August – November 2023
Wayfinding & Environmental Graphic Design

- Conducted field research and observed commuter movement to diagnose navigation pain points in a high-footfall railway station.
- Designed a proposed wayfinding system using visual hierarchy, pictograms and colour coding for clearer navigation.
- Authored the research report; *the project was selected for article publication.*

Education

two schools, one lens

Masters in Strategic Design Management — Ongoing
National Institute of Design (NID), Gandhinagar

Bachelor of Communication Design — 2020 – 2024
Anant National University, Ahmedabad

Tools

the hand I play with

Figma, Adobe XD, Adobe Illustrator, Adobe Photoshop, Adobe InDesign, Adobe After Effects, Adobe Premiere Pro, Adobe Audition
